## CETCO Passive Water Polisher (CPWP) Produce Water Polisher

The CETCO Passive Water Polisher (CPWP), a produced Water polisher uniquely designed to meet your Overboard Water Discharge criteria on a reliable basis. System is designed to work unattended and can be made suitable for unmanned locations. An Oil & Grease Analyzer on the existing facilities discharge outlet can be installed to actuate a 3-Way Valve to divert Produce Water as needed to CPWP to polish water to achieve NPDES Overboard Water Discharge criteria for Federal Leases in the Gulf of Mexico.

### Applications

- Process Produce Water up to 4200 BWPD per Unit that uses ~100 sq. ft. of deck space
- Design for Unmanned and Manned Facilities

### Benefits

- Stay in compliance with NPDES Discharge Permit
- Operates in a passive manner
- Can be automated to send a SCAD Signal to advise when unit needs servicing
